**Complaints** – No complaints.

**Delinquent Bills**- Meeting was on the 11<sup>th</sup> so no shut offs have been sent out for the month of June yet. 33 shut off notices were sent out in May, which is an extremely high number. All the shut offs paid and no customers were shut off.

**Old Business**-

Tyler Howell reported he was able to rebuild the transfer pump because replacing it with a new one he can't find anything under \$2,000.

VFDs are all done and running fine at the plant.

EPAs will not come after hours to allow the Board members to complete the chemical certification testing. Tom Tucker is going to give EPA a call because the Board members all work during the day.

The quote came from Quality Paving to pave all the patches along Market Street from the water line repairs at \$14,400. The Board needs to find a cheaper repair so they are going to look at repairing the patches with concrete. Quotes to repair the patches with concrete are going to be obtained from David Price and Richard Holcomb.

**New Business** –

Tyler Howell reported that he should have his water hours for this certification by July so the Board should no longer need Dale.

Danise Stallsmith was present to discuss the water rate increase for Kiwanis Village. The Board covered the impact of the increase to Kiwanis and it would not be that great of an impact. The Board is still planning to replace to meter since it is not working properly.

The next regular meeting will be July 16, 2018 in the Village Council Room.
