Tyler Howell reported that Holcomb will be in this week to repair roads where water line breaks had to be replaced. If Holcomb is available Tyler Howell he will keep him to install the hydrant after the road work. The hydrant will be a couple day job and they won't know until they get it opened what supplies will be needed.

Aqua came and replaced one chlorine pump. Aqua has been coming to the water plant once per week.

The truck needs a new fuel pump so the Board agreed to pay half of the repair bill.

Diane reported that she spoke with Phil Wright and it should take around 1 month to get all the parts in for the pump station to complete all the repairs. During the meeting Phil Wright called and reported that one of the pumps is not repairable so the Board agreed to order two brand pumps. The pumps were the last two pumps and will be shipping from Texas.
