Old Business –

Doug Shawver & Diane Evans reported that a meeting was held with Phil Wright at Marion County Sanitary Engineer regarding the report and the services provided. Mr. Wright doesn't feel the issue with the leaking between the affluent gate is a feasible request because all 3 lagoons would need to be drained to perform the work. OMI does need to be updated because a draft is on file so the Village's engineer may need to be contacted to update those documents. Mr. Wright provided a name for a contact that can handle the brush cleanup and ground seeding (Matt Strine Ground Control). The board asked Tyler Howell to take a couple pictures of the items that have been resolved on the report and send them to ODNR.

A phone conference call is going to be setup with ODNR, Marion County Sanitary, and the Board to discuss the items on the report. The Board will be drafting a list of questions to bring to the conference call.

Mary Price reported that she spoke with Scott Copper at Park National Bank and nothing is needed at this point on the CDs.

New Business –

Next meeting scheduled for July 20, 2026 @7:00pm.
